

SAP ONLINE PROGRAMS

EXCLUSIVELY FOR STUDENTS & APPRENTICES

100 % ONLINE & FLEXIBLE

TUTOR SUPPORT

UNIVERSITY CERTIFICATION & SAP CERTIFICATION

The Department of Economics of the Brandenburg University of Applied Sciences (Prof. Dr. Robert Franz) offers, in cooperation with SAP University Alliances and SAP UCC CHICO, e-learning programs with SAP software exclusively for students.

Since 2006 erp4students has been providing opportunities for students to acquire important skills in working with SAP products and to prepare themselves for an official SAP certification. All programs are available exclusively for students and to special student conditions.

After finishing a program, participants can take the SAP examination and gain a globally recognized SAP consultant certificate. erp4students offers exams in the fields of **SAP S/4HANA Cloud (IEE2E)**, **Financial Accounting with SAP S/4HANA** and **SAP Analytics Cloud (SAC)**. More certifications will be available in the near future.

Economic critics that academic training often lacks in preparing students for real problems and tasks of later professional practice. erp4students therefore offers e-learning programs in **six** different subject areas of the SAP environment, giving students the opportunity to acquire practical skills for their later professional life in addition to their regular studies.

Upon completing either program, you will possess in-depth theoretical knowledge of the SAP system, its technical aspects and the set-up of the underlying data model, as well as approaches to compile analyses and reports. You will be able to work with different functional components of the SAP system and its integration into complex business scenarios by first getting to know the relevant theory, followed by practical application using the SAP system.

WE OFFER PROGRAMS IN THE FOLLOWING AREAS:

- SAP S/4HANA Cloud (IEE2E)
- SAP FI with SAP S/4HANA
- SAP CO with SAP S/4HANA
- SAP MM with SAP S/4HANA
- SAP SD with SAP S/4HANA
- SAP Analytics Cloud (SAC)

**MORE TO
COME!**

HOW IT WORKS

You work online within a live SAP system to enhance practical competencies of the acquired theoretical SAP knowledge. All programs run completely online, which gives you the chance to work on the materials in a very flexible manner, according to your own schedule and from any place you like. Thus, you can easily pursue your program aside your regular studies.

CASE STUDIES

The programs are organized in case studies that are completed in sequence. You can track your progress through the program as well as identify where your strengths and weaknesses are, making it easier to complete the program and obtain your SAP certification.

Throughout the whole program, tutors provide individual support. The support can be accessed 7 days a week via e-mail.

STAND OUT FROM THE CROWD AND
BE THE FIRST WORKING WITH SAP S/4HANA!

PROGRAM MATERIAL

You will be working on the latest version of an original SAP system. The theoretical background is explained in detailed lecture notes and the case studies you will be working on were especially designed for erp4students. These materials are not usually available outside the SAP commercial classroom trainings.

CERTIFICATES

Each participant who completes a program successfully receives a university certificate issued by the Brandenburg University of Applied Sciences. Additionally, erp4students offers the opportunity to participate online in official SAP consultant certification examinations at special student rates.
